GETTING HELP  
WITH GRANTS 1

## GREETINGS FROM THE ASSOCIATE DEAN'S OFFICE

This newsletter is the first of many which will encourage you to take advantage of the services which we offer. The Research staff are available to assist you with your grantsmanship activities including: pre-award application preparation, travel to funding agency conferences, post-award management of your project or any other research needs which you have. We have posters in several loca-

tions in Willard Hall which announce, "We Are Ready To Respond!"

We mean that sincerely and we hope that you will stop by our offices on the third floor and get acquainted with us. We are only successful if you are successful, so please let us know how we can help you.

## GETTING HELP WITH GRANTS

The new changes in our Research Support Services are exciting. Our major goal is to provide faculty members with the kind of support that enables development and the achievement of grant awards. As well as supporting grant success and service projects to lead to publications.

The COE Research wiki site ([osucoersearch.wikispaces.com](http://osucoersearch.wikispaces.com)) is one avenue for you to access some of the tools we believe will assist you in these endeavors. According to Wikipedia, "a **wiki** is a page or collection of web

pages designed to enable anyone who accesses it to contribute or modify content.

Wikis are often used to create collaborative websites and to power community websites." Our intent is to initiate a method to enhance communication and support in research efforts for any faculty member that finds this helpful.

The following areas are provided:

- Newsletter
- Faculty Research Interests
- Successes

- Grant Showcase
- Grant Development Tools
- Publication Library
- Publication Tools
- Forms

Please peruse each of these pages and determine if these tools have value in supporting your research endeavors. If there is information and other types of support that you would like to find here, please let us know and we will work to change/update the site.
